The program

9. Instruction:

Esperanto instruction will take place in many groups organized by language level, always in the morning (9:00 – 13:00). On the day of arrival, Friday afternoon, there will be a **quiz**, to allow instructors to divide you into groups by level. **We strongly recommend that everyone take the quiz!**

Total beginners who have no prior knowledge of Esperanto do not have to take the quiz and can instead attend an introductory class with their teachers. For more details ask during the registration or look up at the programme table in the venue.

In addition to the usual language instruction, we will be offering:

10. Additional programs and entertainment:

You will find a provisional program in a separate document. It is not yet complete; several more events will be added to the program over the coming weeks. In addition, times and dates of individual programs may change.

On the days with excursions, a separate program will be prepared for those who are not attending the excursion – lectures, crafts, etc. (more information will be available later). In addition, you may pass your free time by participating in other local activities not organized by the SES team, such as swimming in swimming pool, playing games, hiking, visits to the city, etc.

Note: Always check the schedule in the SES venue (it will be posted at the reception desk by the main entrance) to get the most up-to-date information about the program schedule. An up to date schedule will be put up on Google Calander – we will give you more information about it before the event. All other sources of the program schedule (including the one contained in this bulletin) may be out of date during the event.

11. Your contribution:

You can make your own contributions to the SES program – feel free to suggest something that you would be interested in contributing to the official program (singing, giving a talk, teaching the basics of your language...). If you need some kind of special equipment for your program, please contact the organizers in advance.

Your contribution is also welcome during the International Evening. If you are interested in presenting your country, culture, or language by sharing a song, a show, music, etc. – please consider contributing! Feel free to prepare your presentation before the event; bring your music or musical instrument, or traditional clothing from your country or region.

12. Free time:

In addition to the official programs, you will have free time to spend as you please. There are many attractions and events taking place in the city of Martin; you can find out about those in the city's tourist center. Nearby, there are activities including:

- The „Sunny“ public pool (right next to the SES venue);
- National Slovak library and museum;
